

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 1: 43643- Transversal skills for translational research in human pathology

27 answered questionnaires

51% participation answer

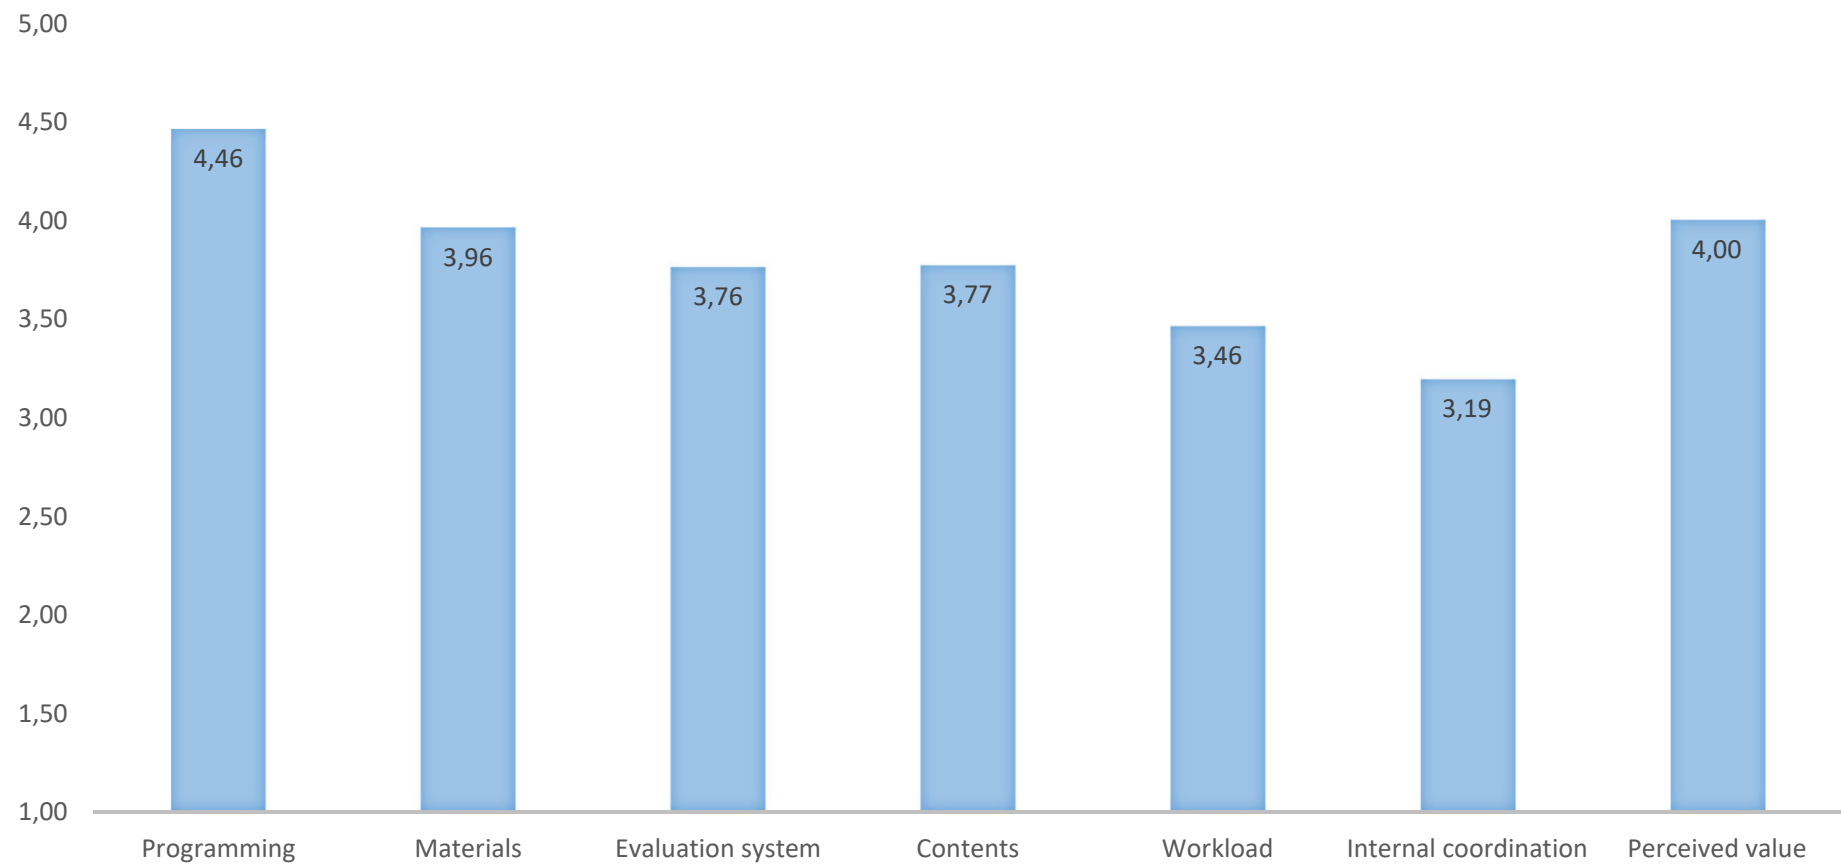

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 2 (Section 1) : 43642- Advanced research tools and methodologies

26 answered questionnaires **49% participation answer**

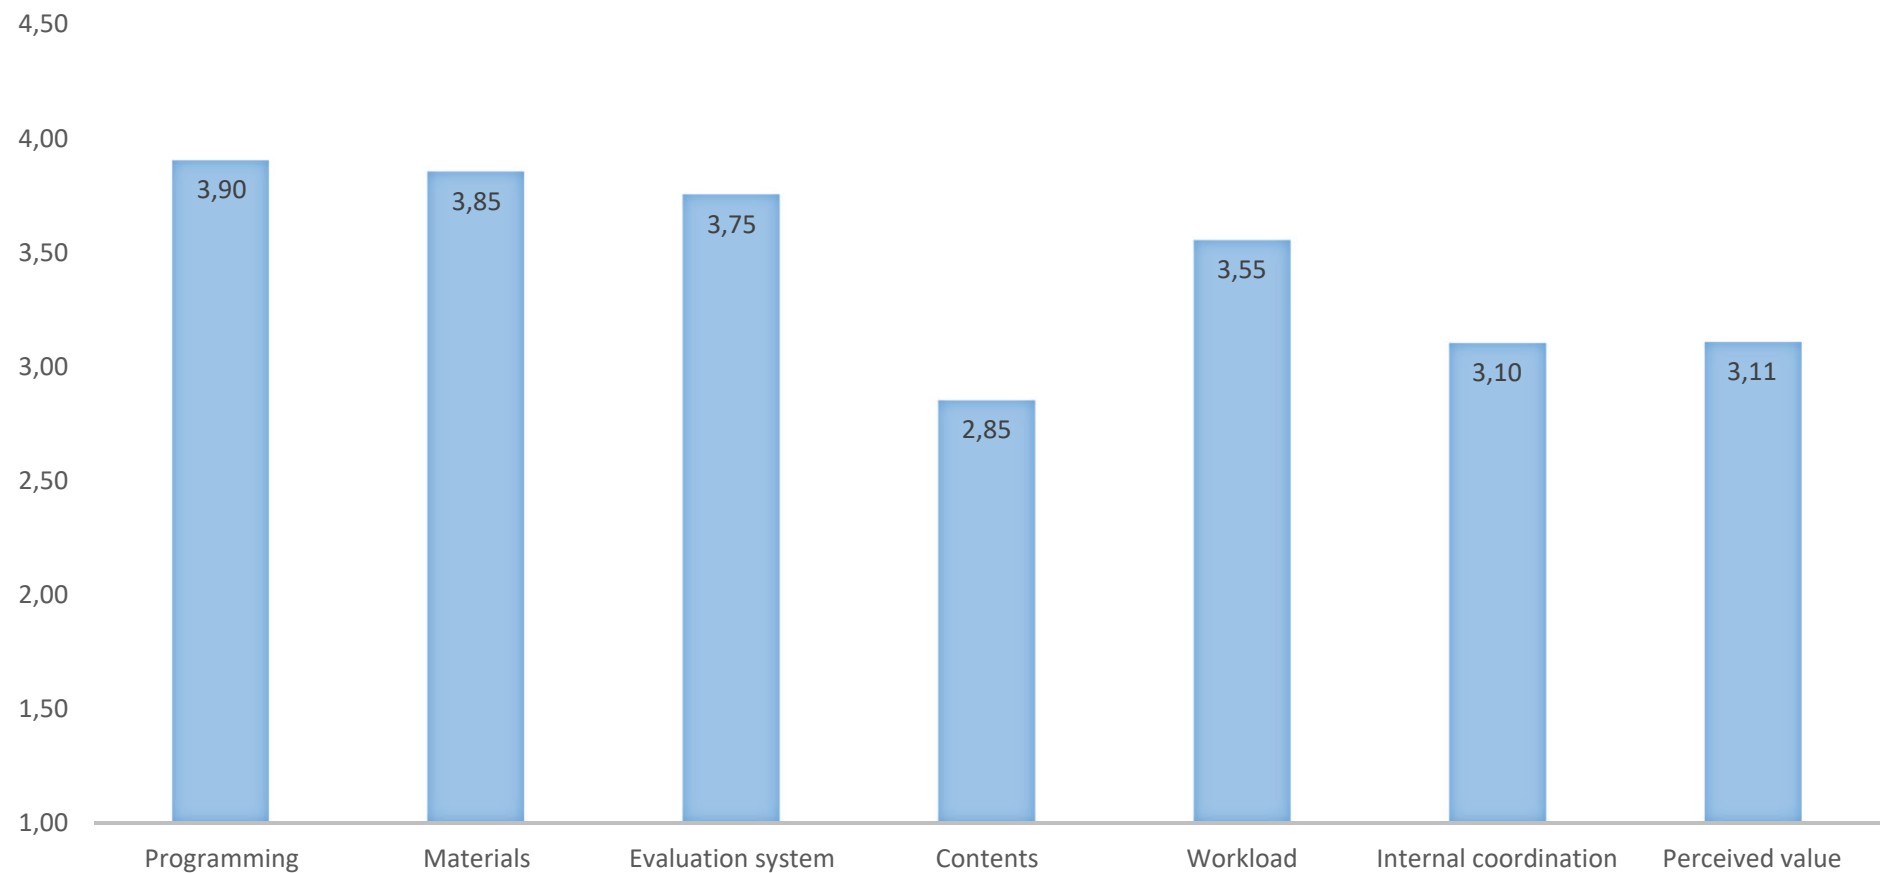

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 2 (Section 2) : 43642- Advanced research tools and methodologies

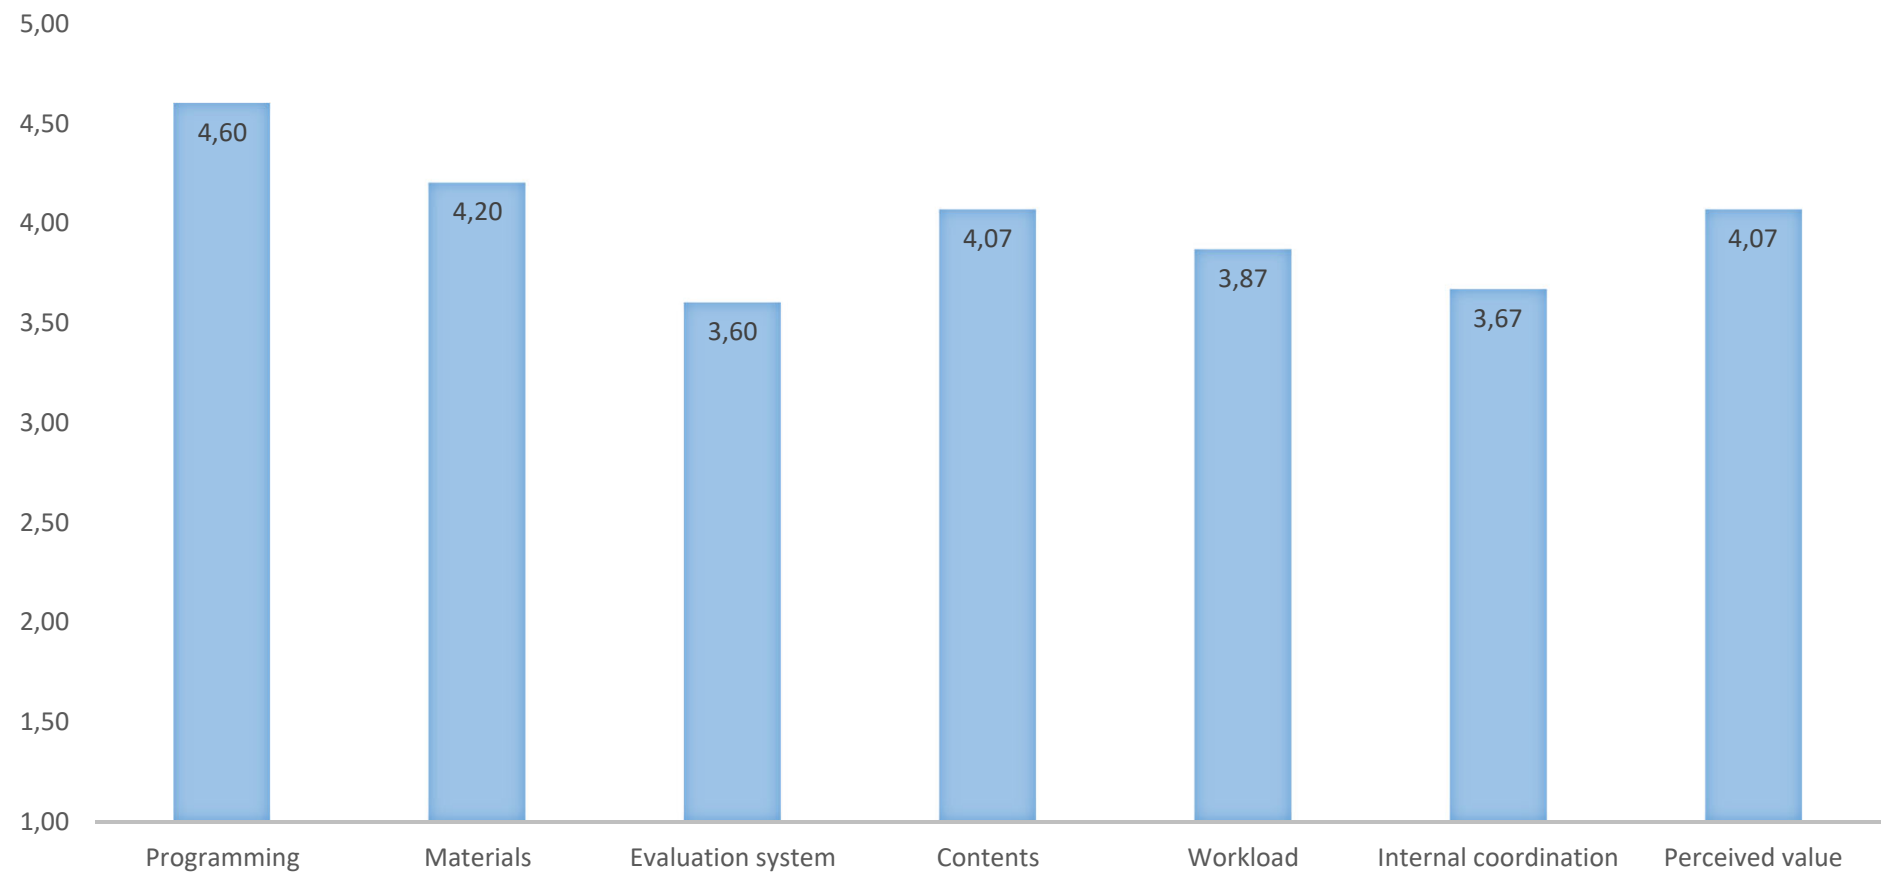

20 answered questionnaires **32% participation answer**

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 3: 43645- Brain and Peropheral Nervous System diseases

15 answered questionnaires **47% participation answer**

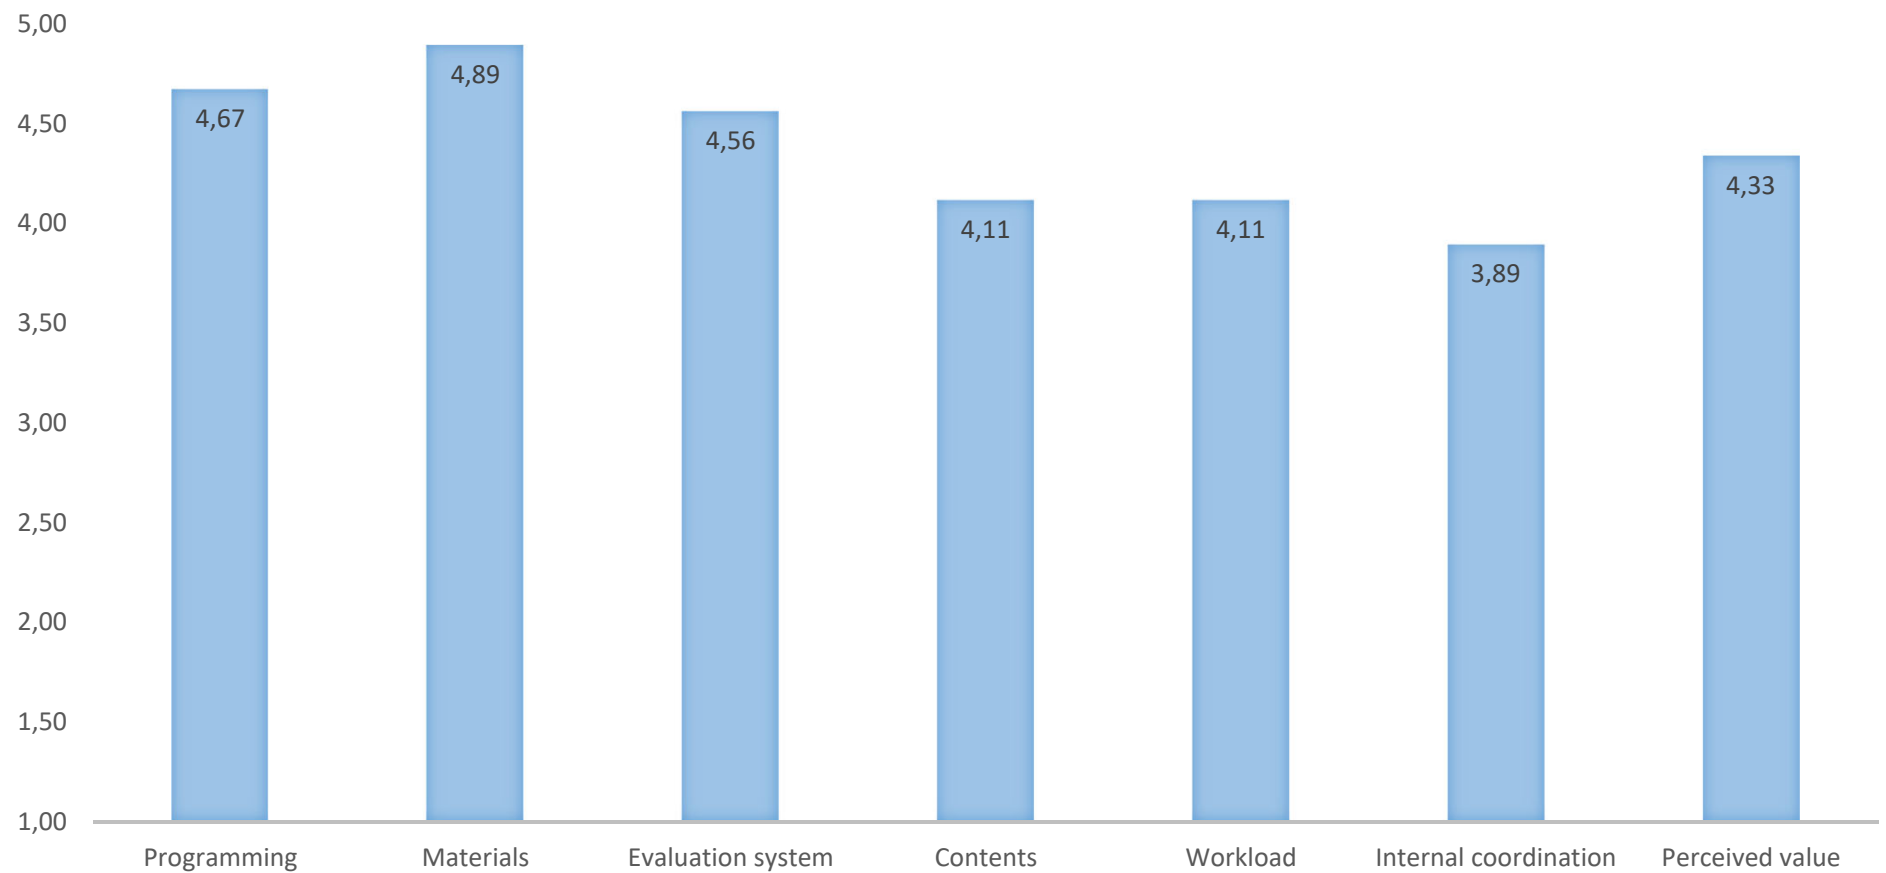

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 4: 43644- Cardiovascular and Kidney diseases

9 answered questionnaires

43% participation answer

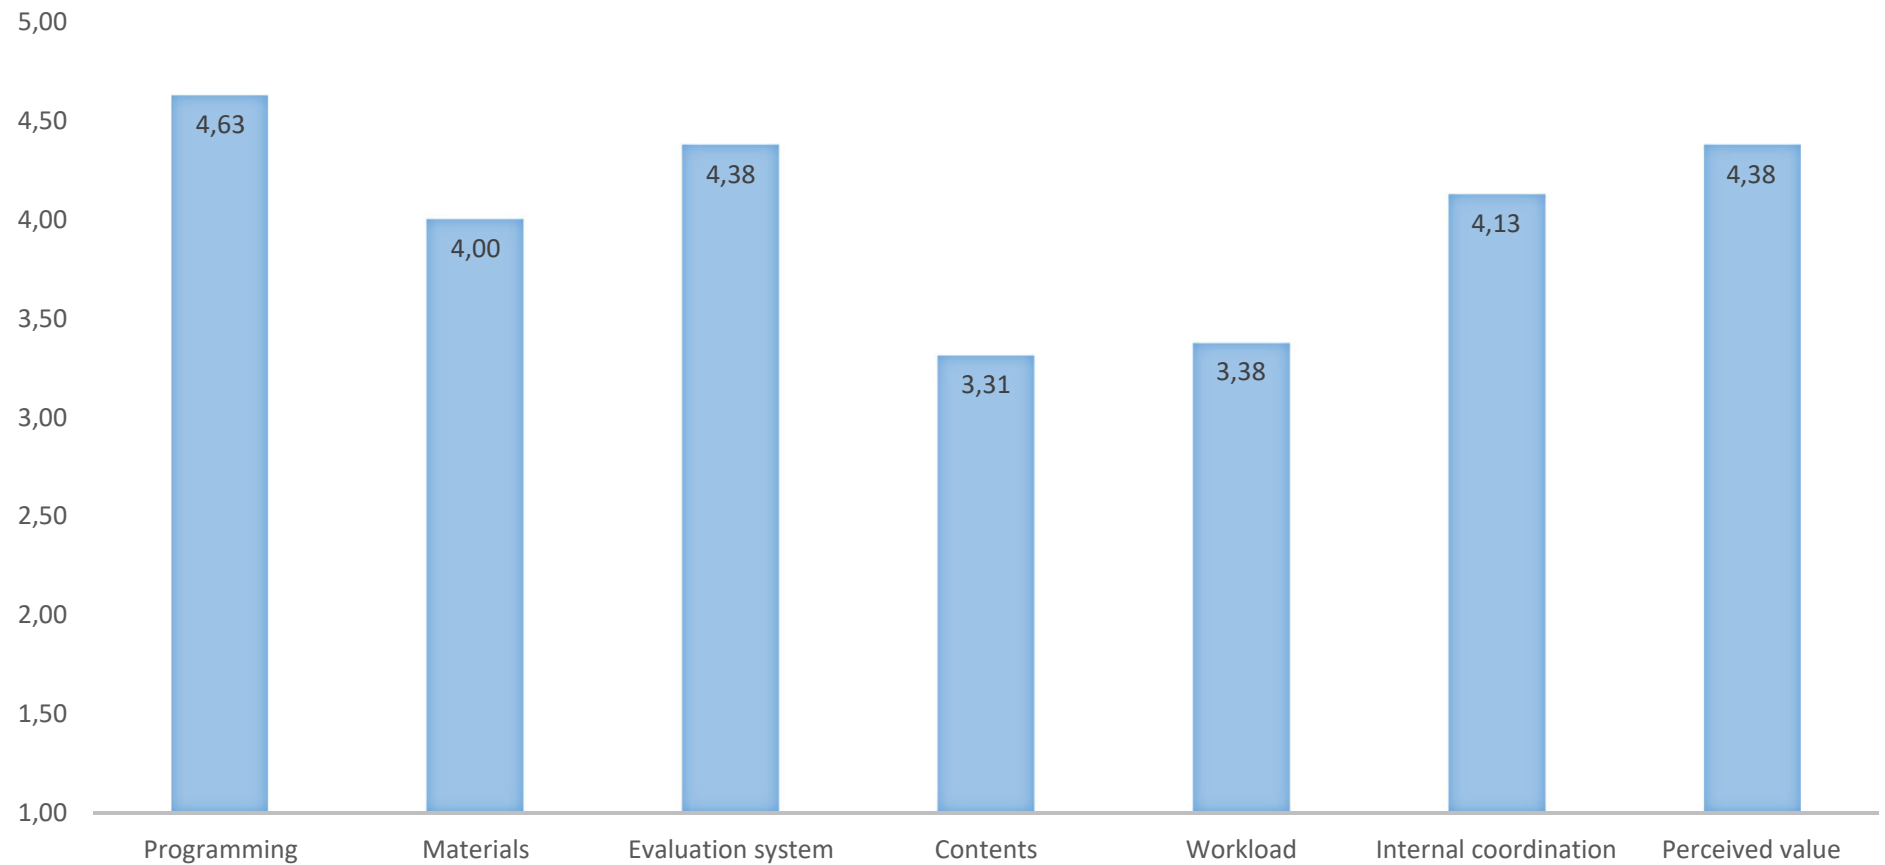

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 5: 43645- Oncological diseases

16 answered questionnaires

44% participation answer

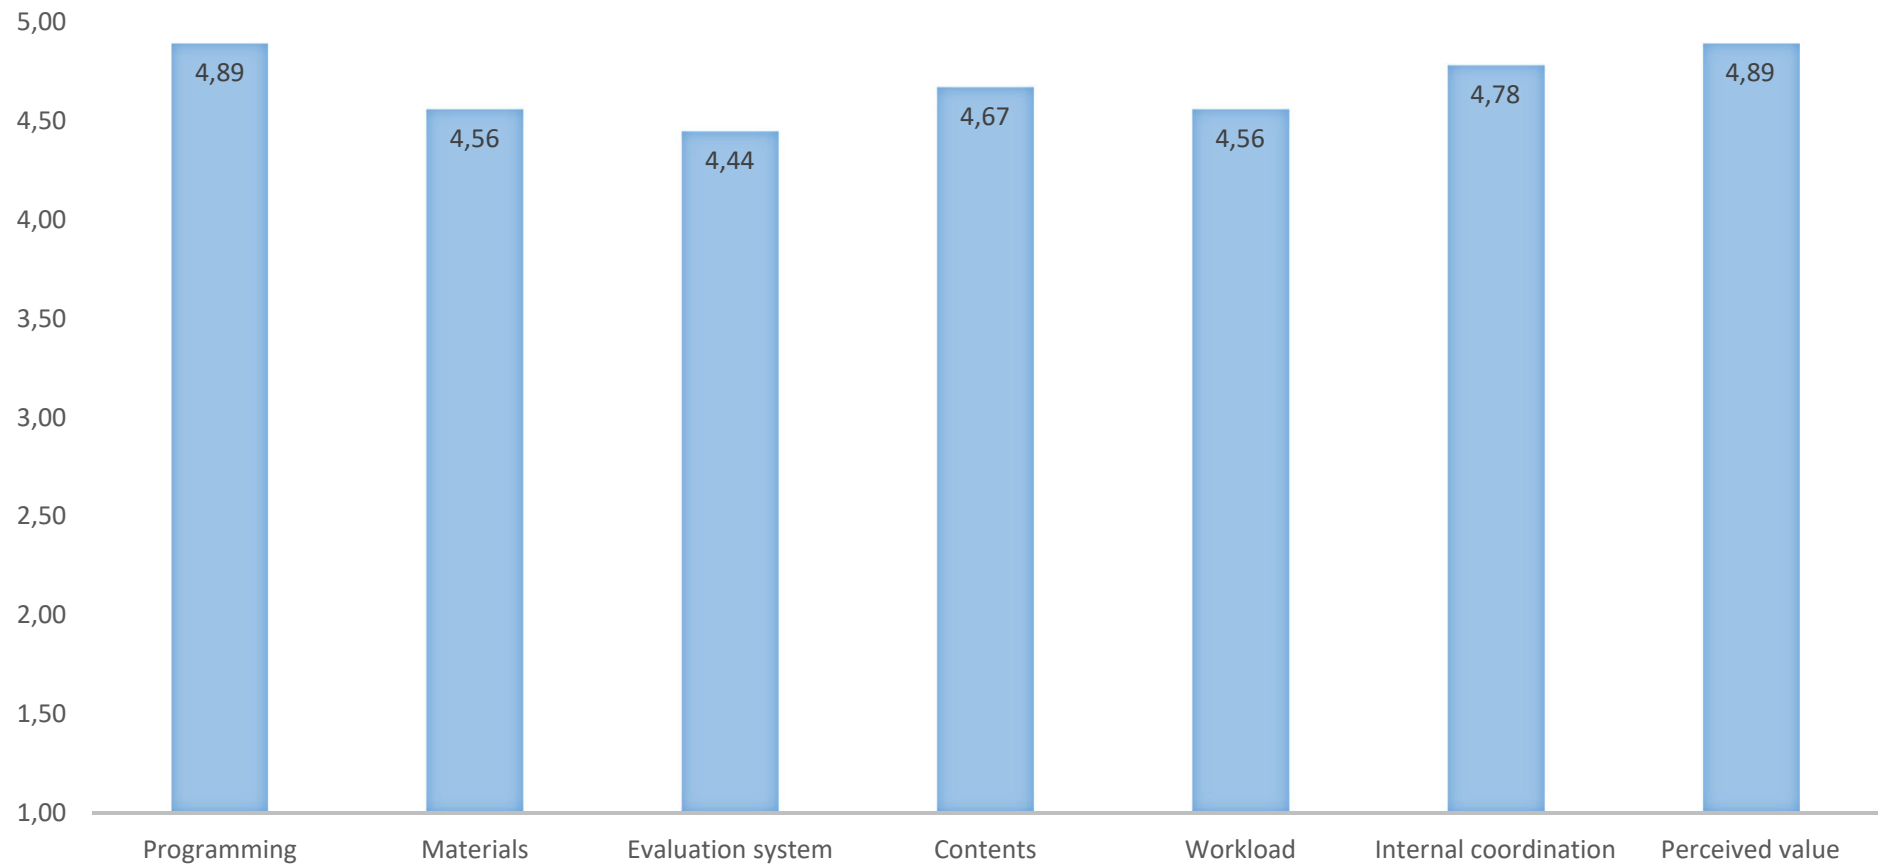

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 6: 43373- Liver and Digestive diseases

9 answered questionnaires

53% participation answer

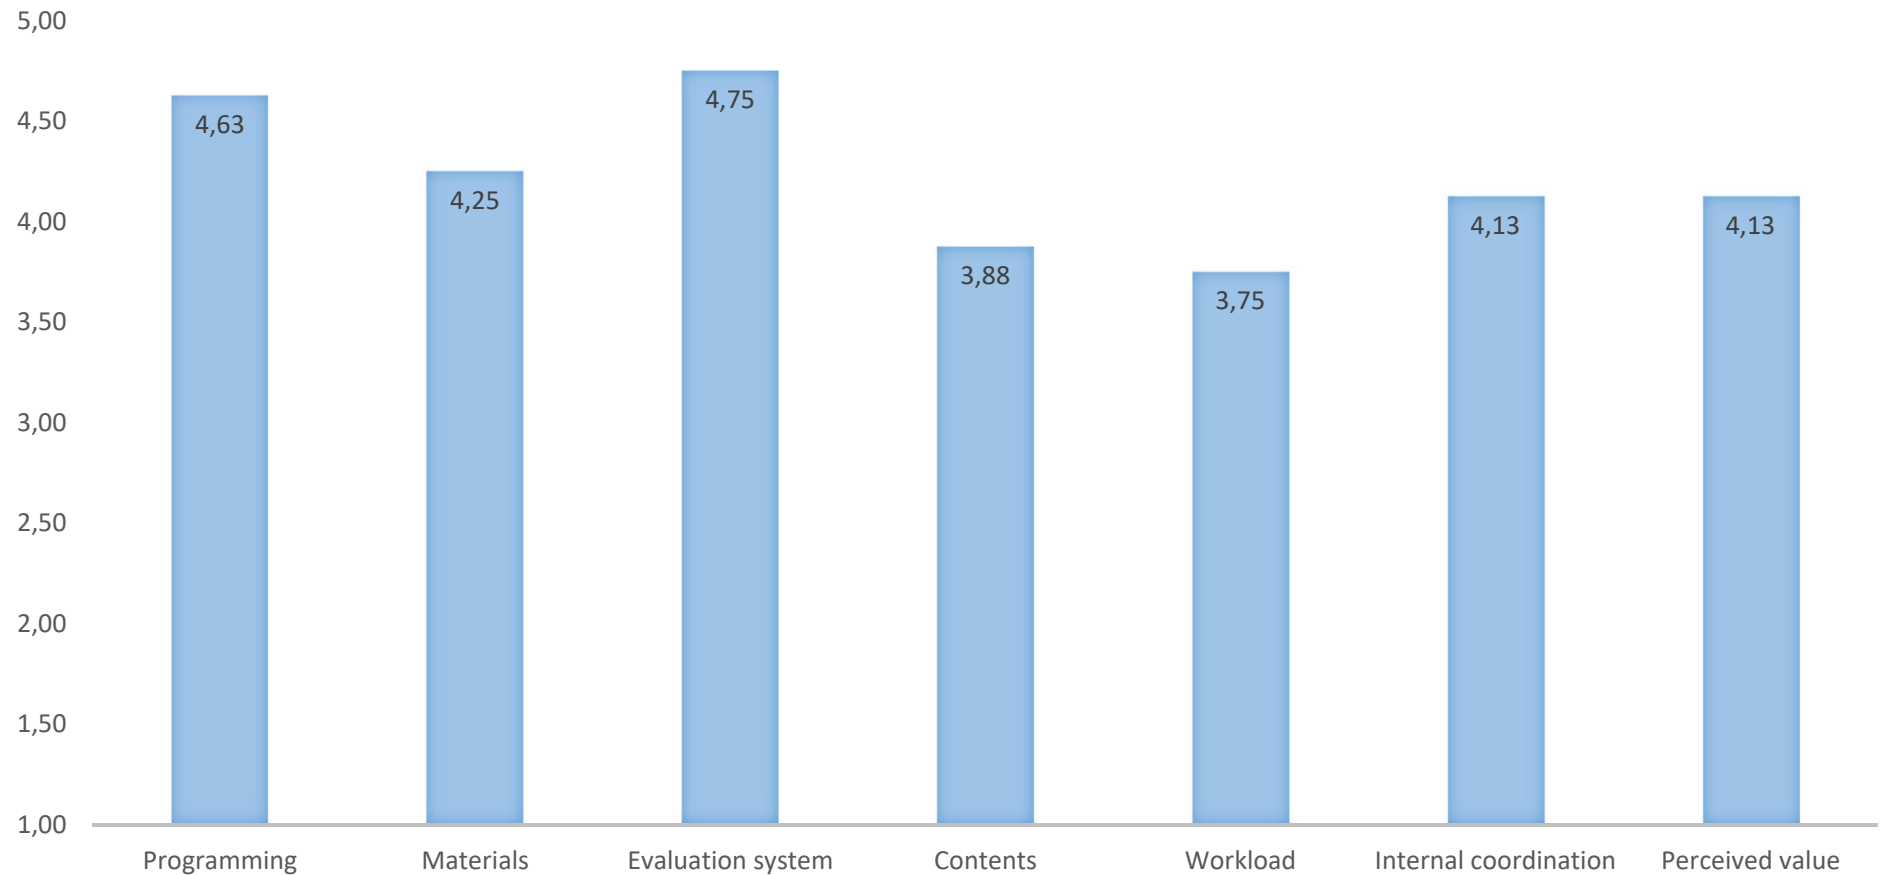

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 7: 43376- Microbiology, Infectious diseases and Critical Pathology

8 answered questionnaires **42% participation answer**

Results of students satisfaction survey with the subjects
Master in Translational Biomedical Research
Course 2024-2025

MODULE 8: 43375- Respiratory, Immune, Systemic and Endocrine System diseases

16 answered questionnaires

47% participation answer
