

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

**MODULE 1: 43643- Transversal skills for translational research in human pathology**

15 answered questionnaires    **34% participation answer**

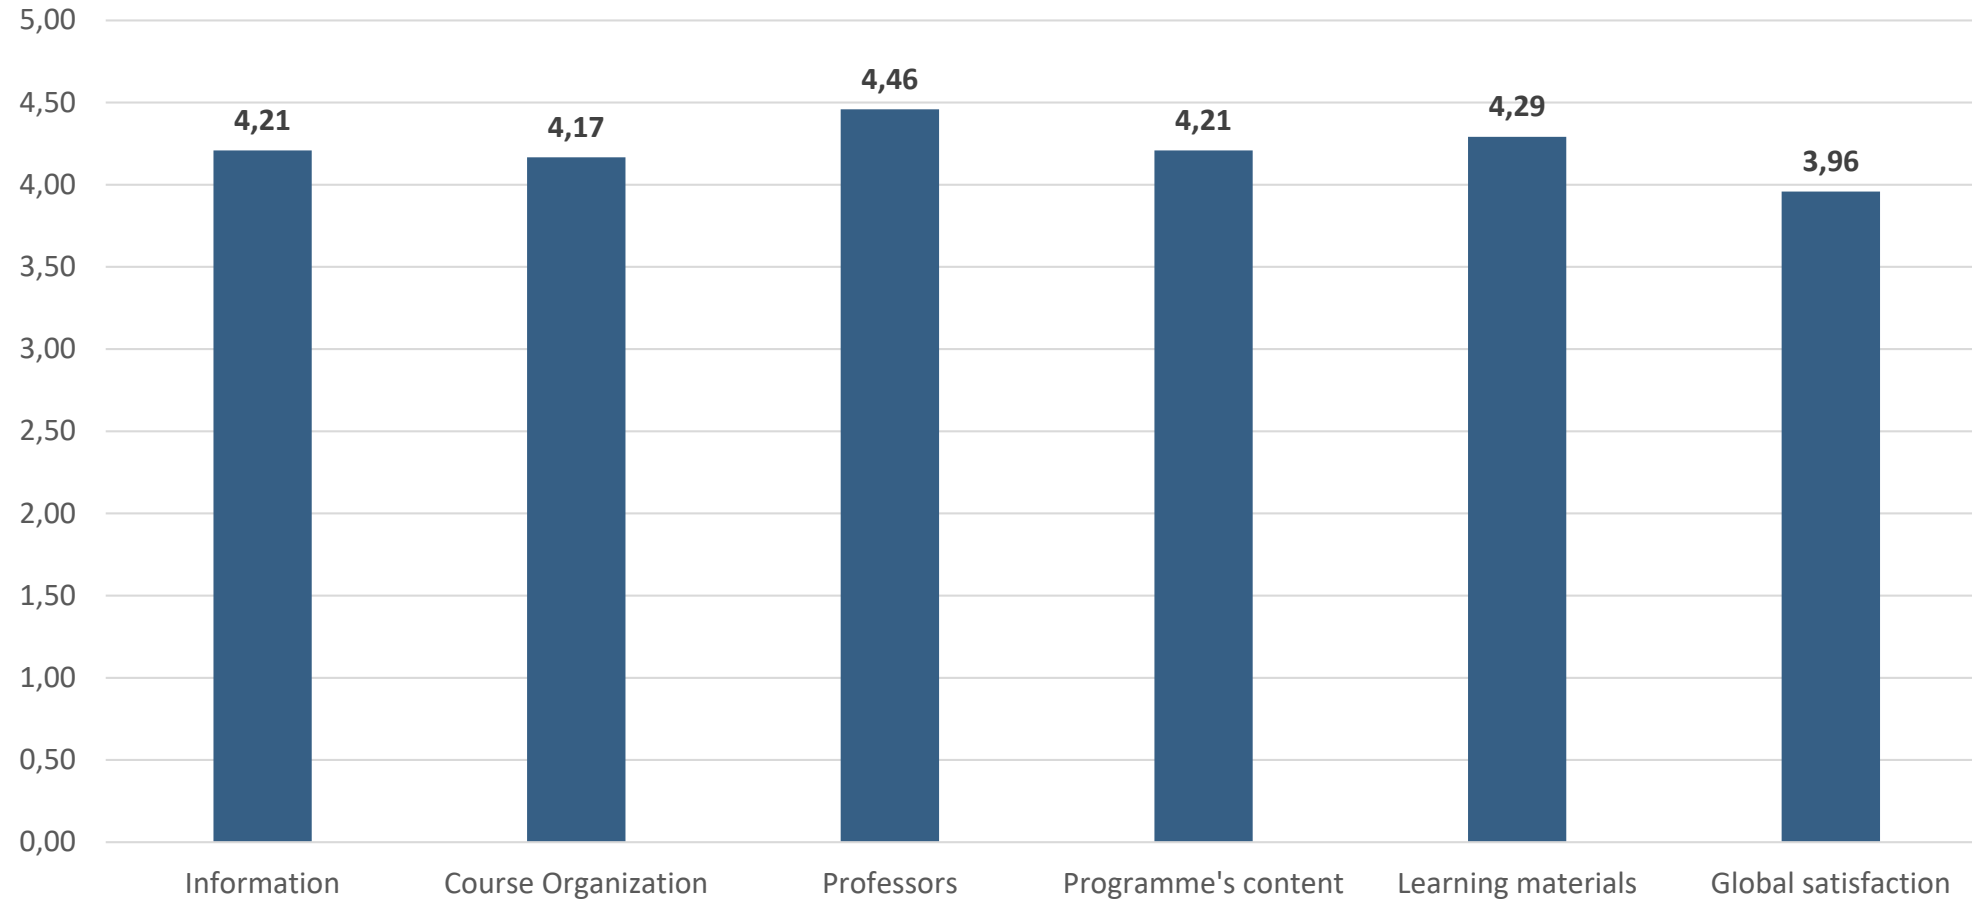

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

MODULE 2 (Section 1) : 43642- Advanced research tools and methodologies

24 answered questionnaires 53% participation answer

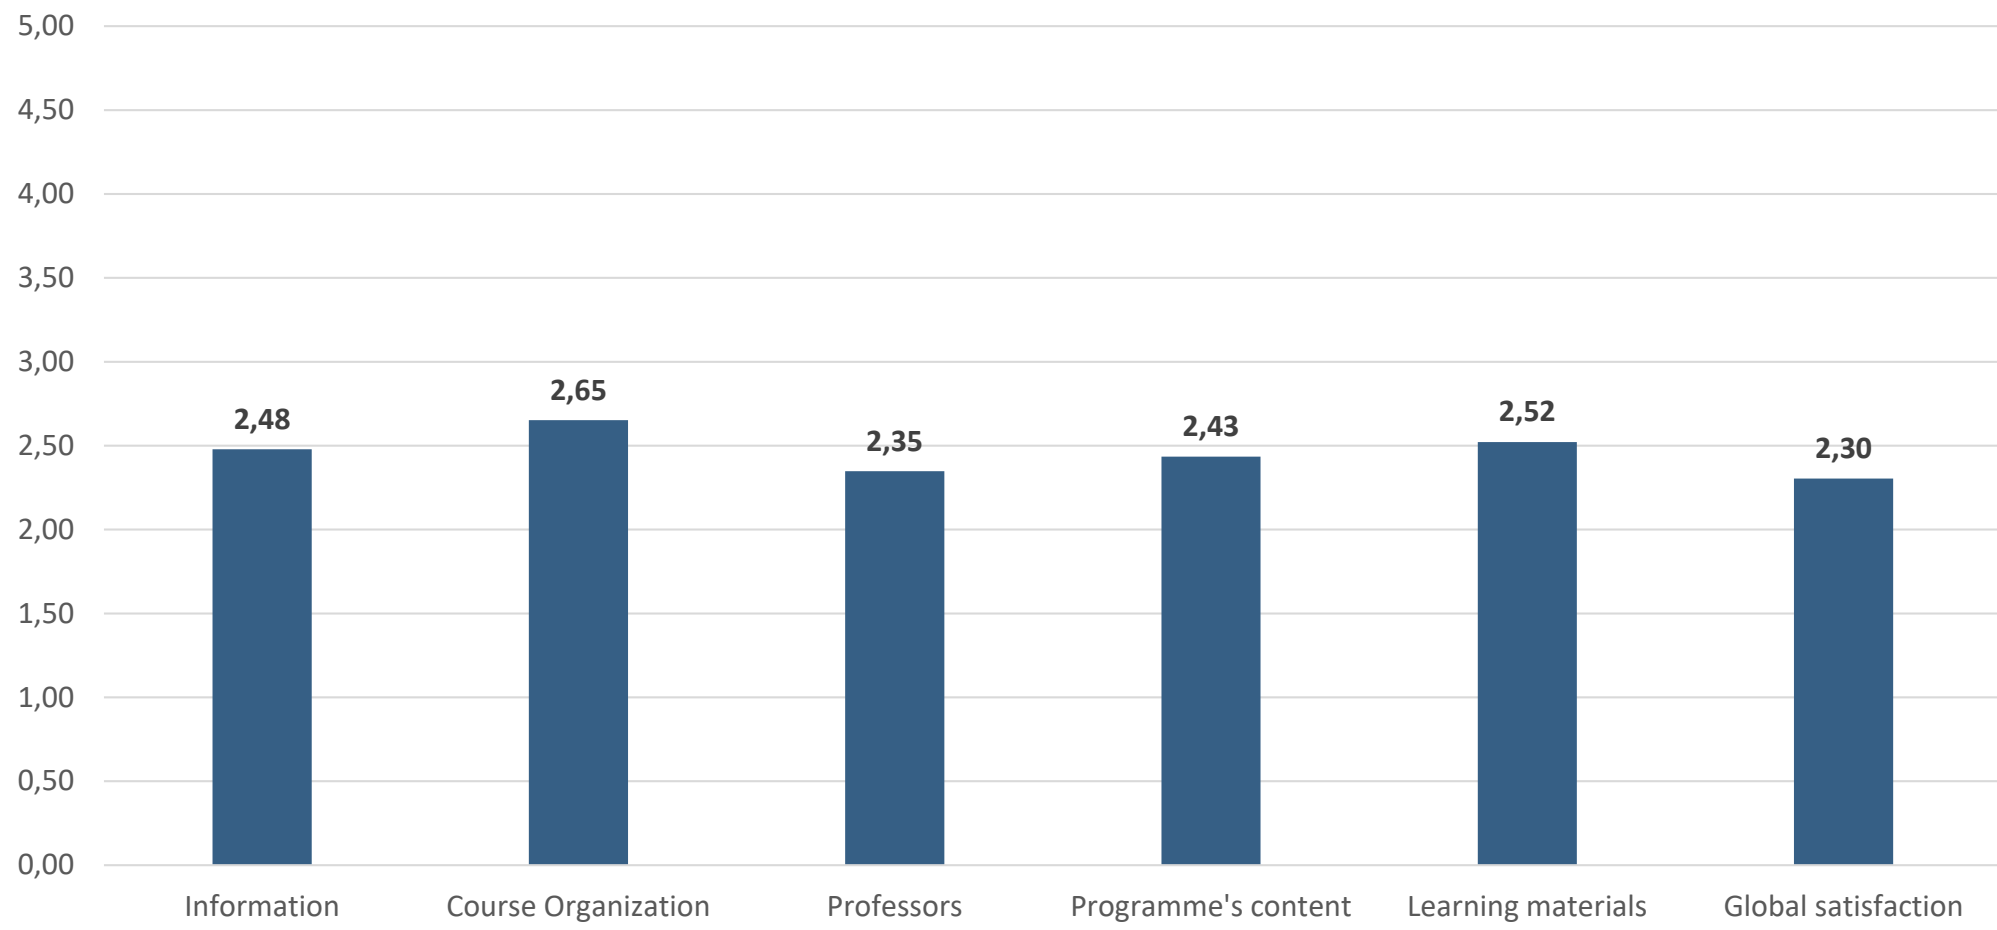

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

MODULE 2 (Section 2) : 43642- Advanced research tools and methodologies

23 answered questionnaires 51% participation answer

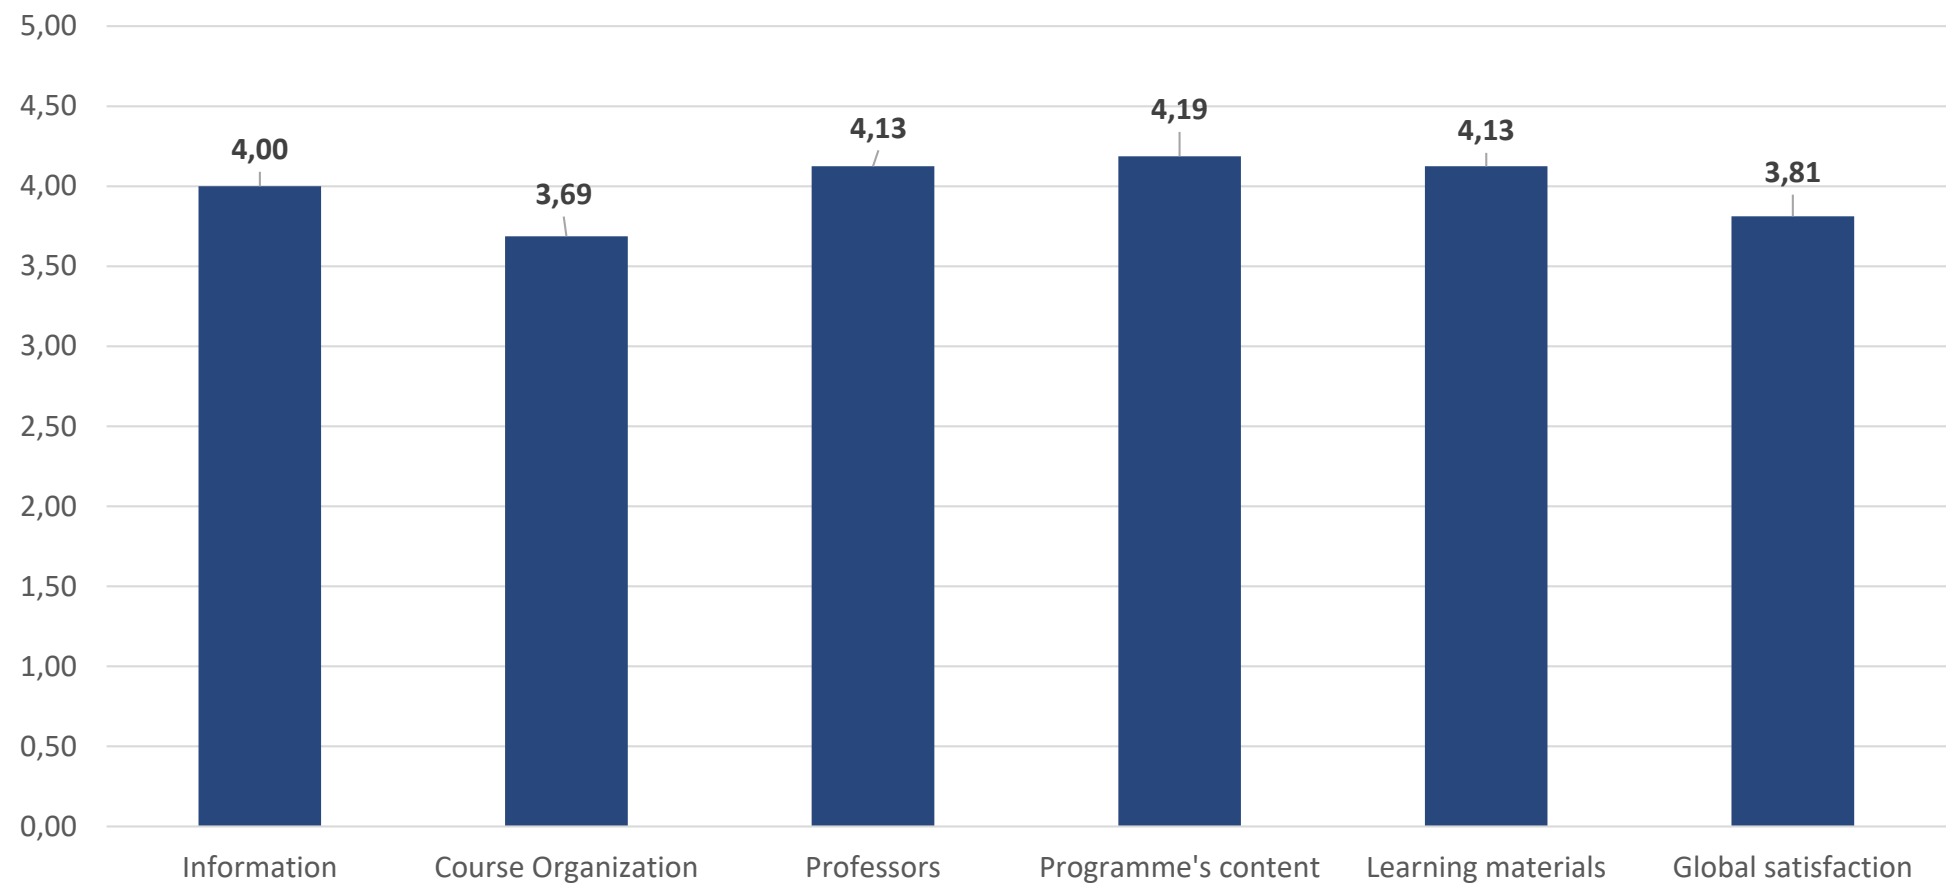

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

**MODULE 3: 43645- Brain and Peropheral Nervous System diseases**

16 answered questionnaires **59%** participation answer

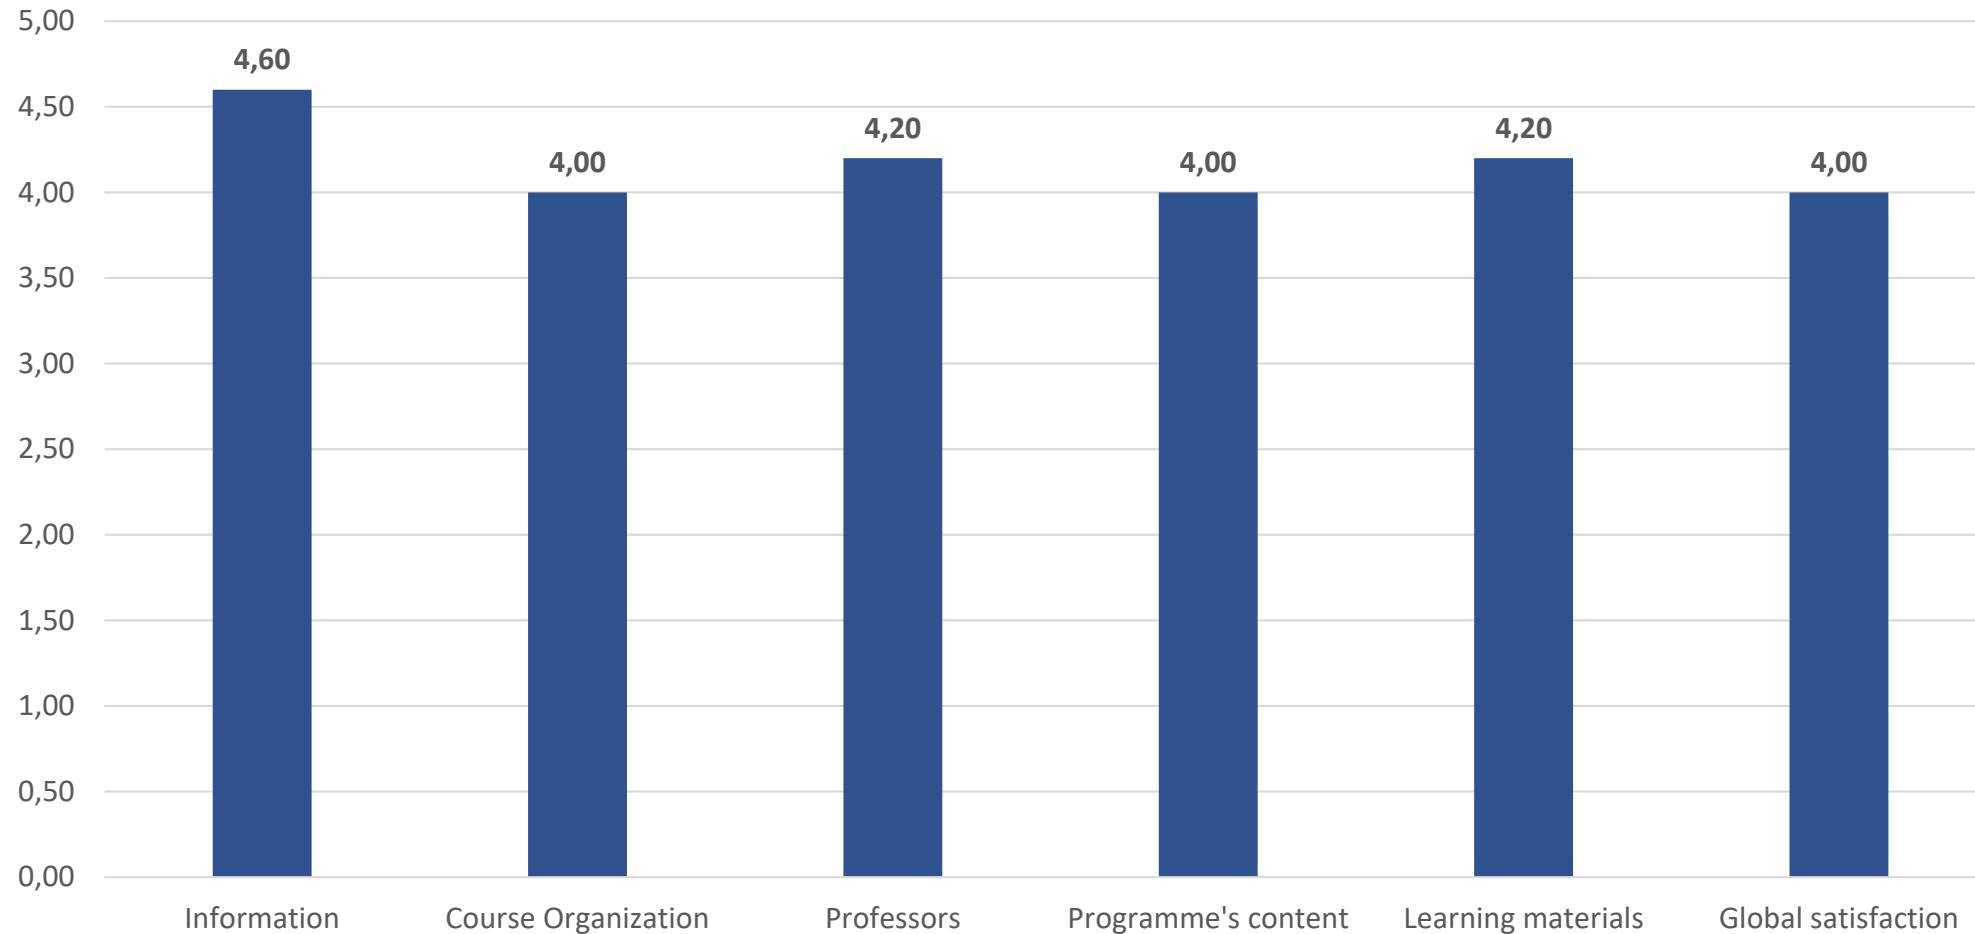

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

**MODULE 4: 43644- Cardiovascular and Kidney diseases**

5 answered questionnaires

**63% participation answer**

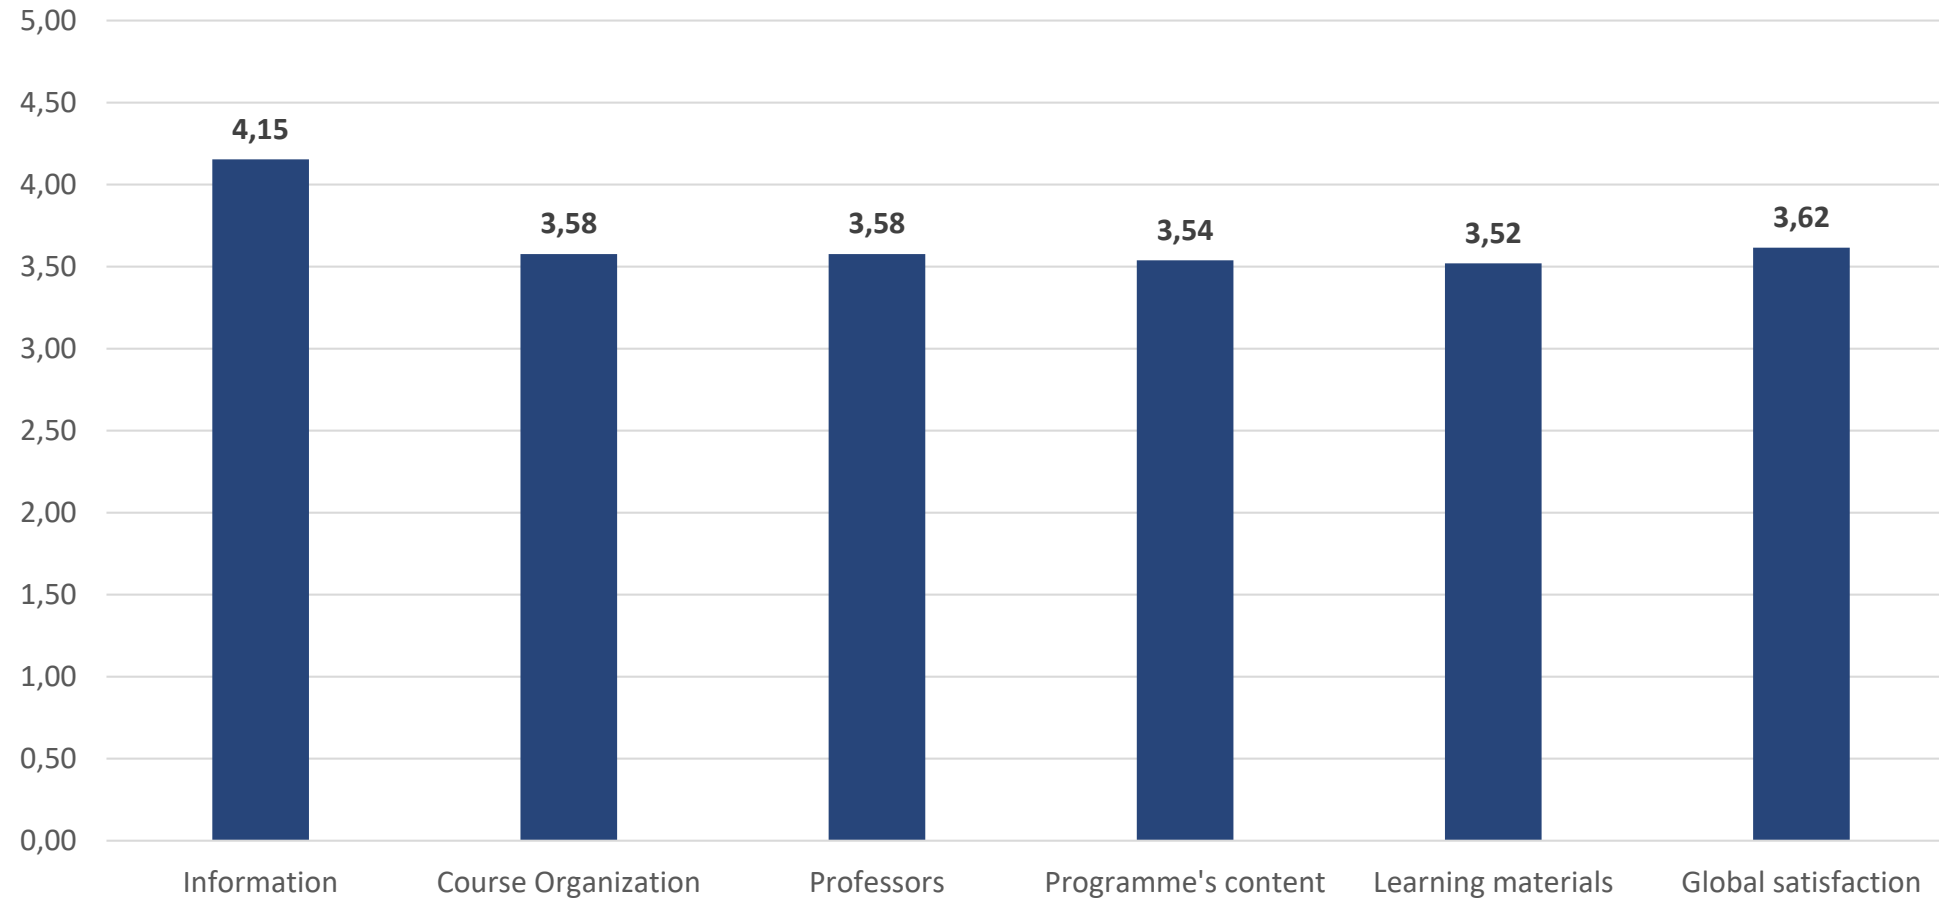

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

**MODULE 5: 43645- Oncological diseases**

26 answered questionnaires

**76% participation answer**

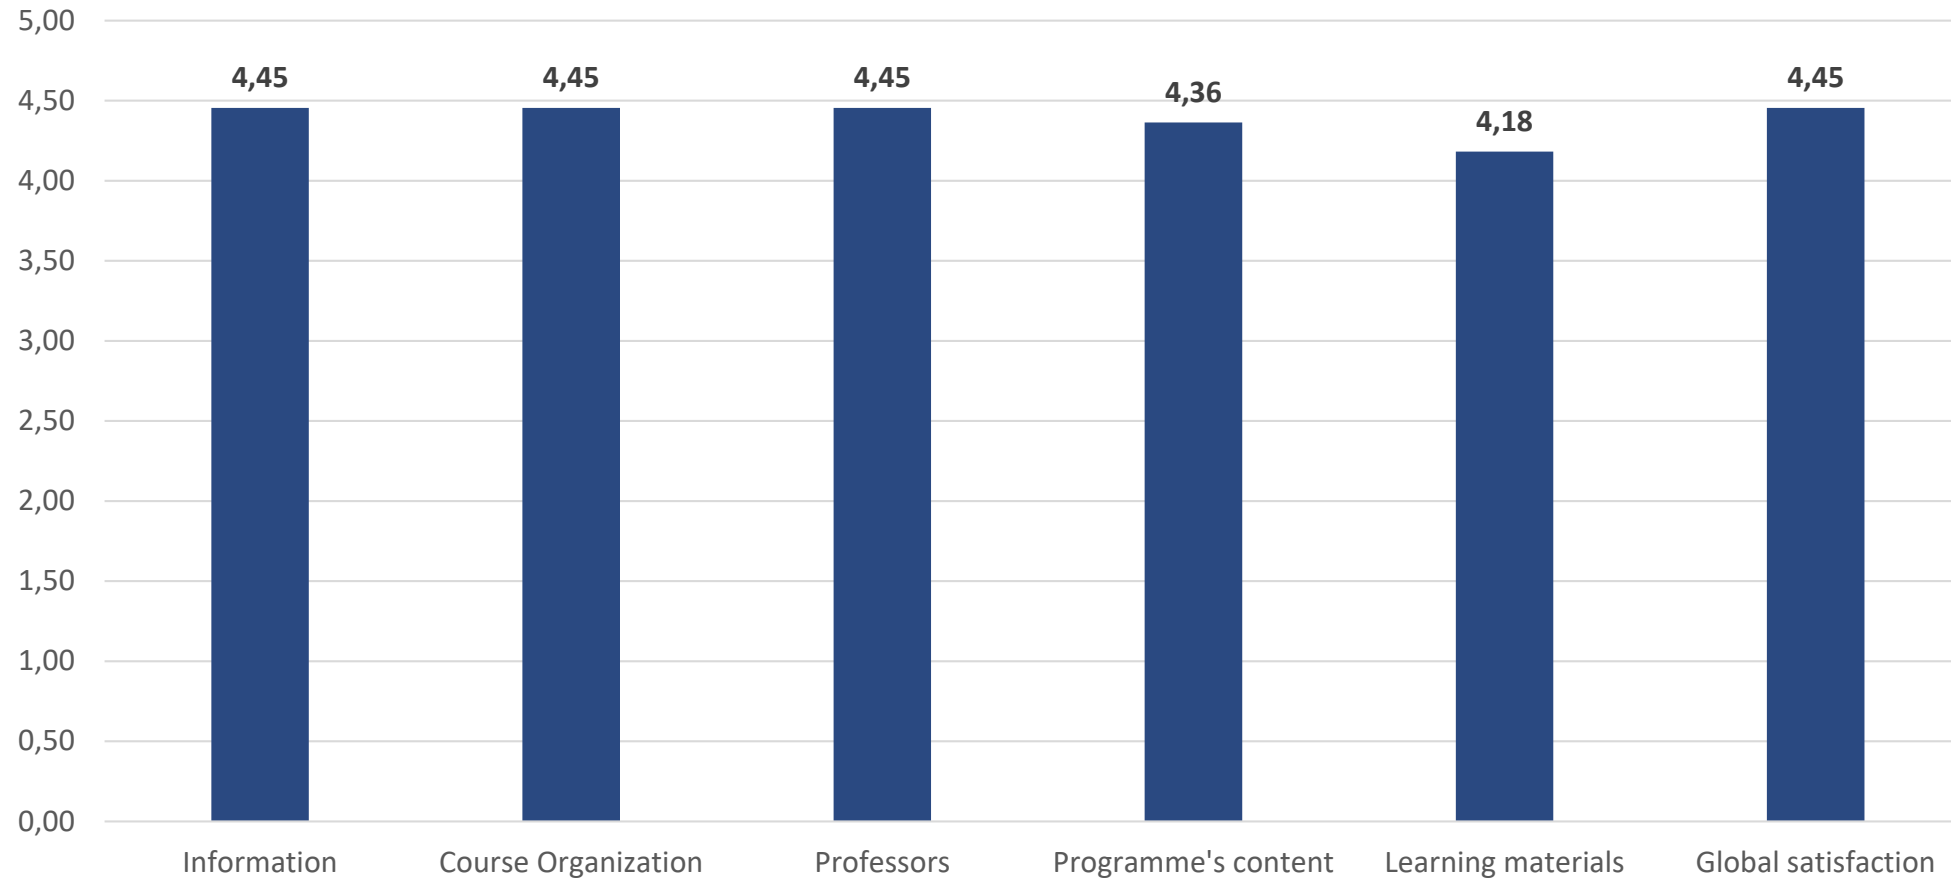

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

**MODULE 6: 43373- Liver and Digestive diseases**

11 answered questionnaires **69% participation answer**

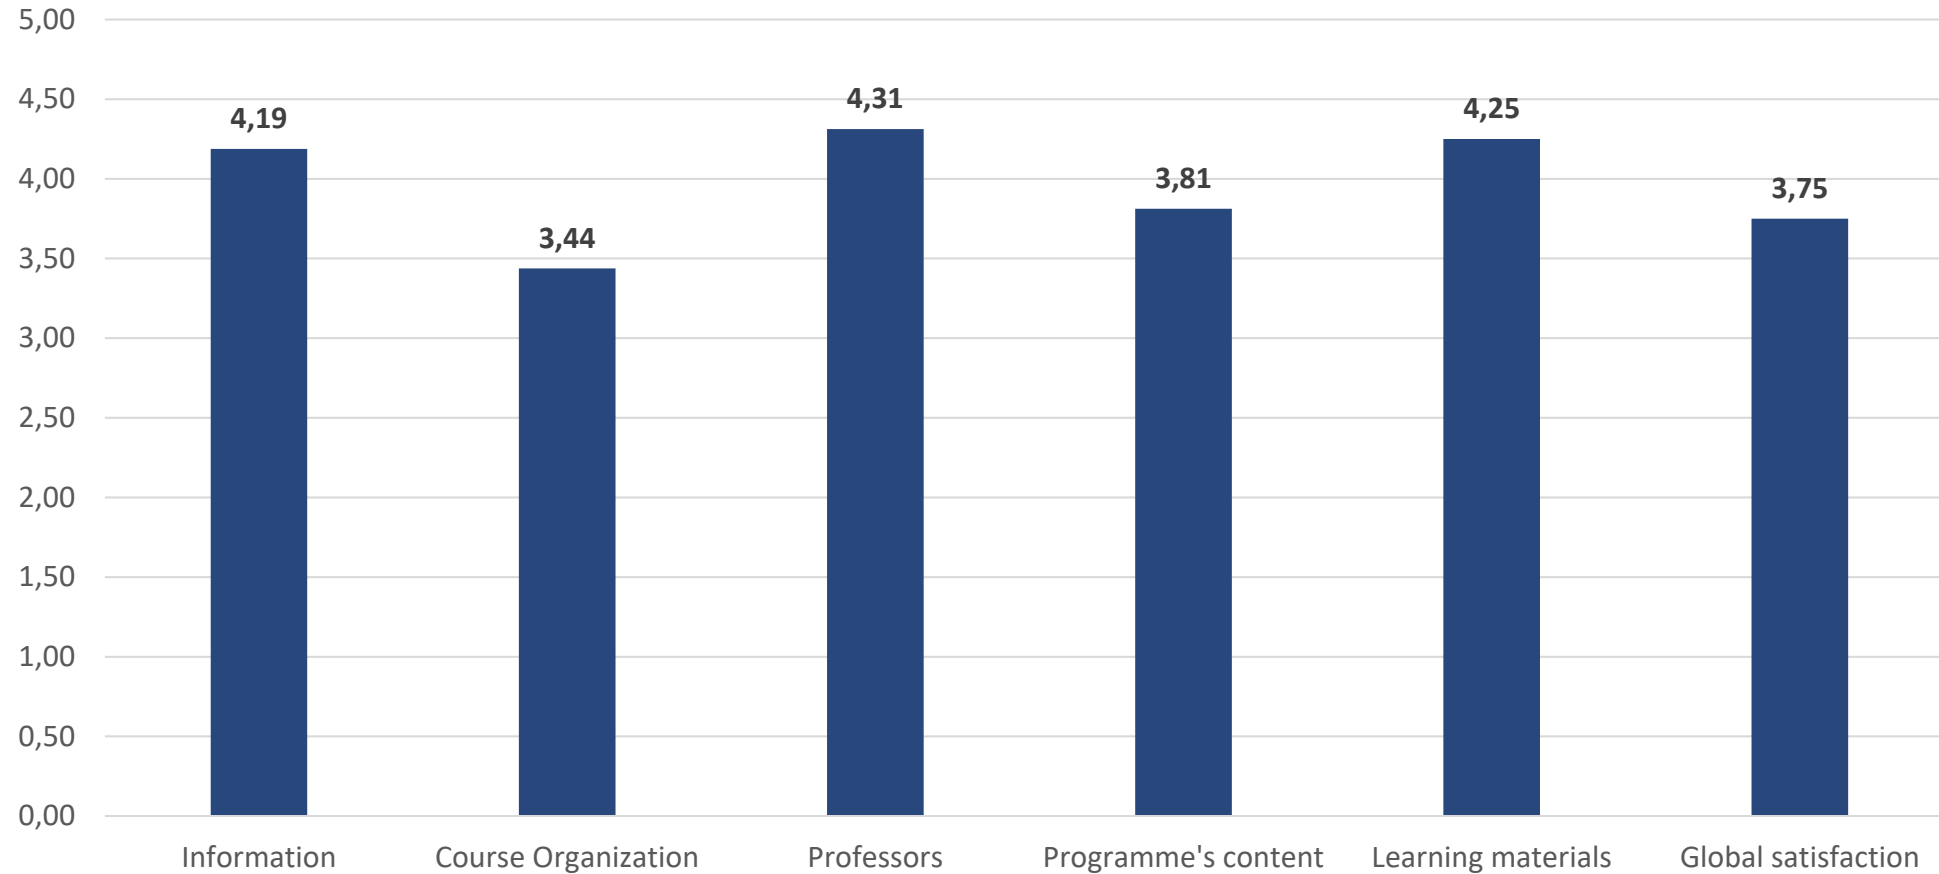

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

**MODULE 7: 43376- Microbiology, Infectious diseases and Critical Pathology**

16 answered questionnaires **67% participation answer**

Results of students satisfaction survey with the subjects  
**Master in Translational Biomedical Research**  
Course 2022-2023

MODULE 8: 43375- Respiratory, Immune, Systemic and Endocrine System diseases

8 answered questionnaires

38% participation answer
