

VHIR MASTER'S SCHOLARSHIPS

CALL NESTLÉ 2024-2025

This call will offer 1 scholarship for an internship at Nestlé Research (Switzerland) between March and August 2025.

Nestlé Research will offer:

- Diverse, supportive and collaborative environment to develop a research project within the food industry.
- Supervision by internal researcher, as a project director.
- Salary to cover living expenses.

Candidates should fulfill the following **eligibility criteria** at the time of the call deadline:

- Plan to enroll to the program full-time (60 ECTS).
- Have obtained their Graduate Degree after January 1, 2022.
- Have a grade point average (GPA) equal to or greater than 8.

Application must be submitted answering this email, which will have attached the documents below:

- **Curriculum vitae** detailing internships or laboratory placements, or other experience with the scientific environment.
- **Motivation letter** specifying why you want to do the internship in an industrial environment, what motivated you and what you think you can gain from doing the internship in the food industry.
- **Attested copy of the official and complete academic transcript of the degree** stating the grade point average, the number of credits of each subject or, if this is not possible, the number of hours. In case of studies taken abroad, the transcripts equivalence study of the Spanish Education Ministry.
- **Attested copy of the academic degree** or the proof of payment thereof.¹

¹ If the student still not have the official degree certificate, complete academic transcripts will be enough whenever the provided document states that all credits of studies are achieved.

Selection process:

- First phase: An initial selection will be made by VHIR Master's Degree Commission of the profiles that fit the call, which will be sent to Nestlé – Research and Development.
- Second phase: A final selection will be made from the applications received, which will include a virtual personal interview.

NOTES:

As personal information about the applicant will have to be sent to third parties, it will be essential to send the signed data protection documentation that you will find next to the call for applications.

Obtaining the Nestlé Research grant is not compatible with obtaining any other support from VHIR (Ferrer or Roche grants).
